

in which:

$\text{R}_1$  and  $\text{R}_2$  are identical or different and are  $\text{C}_{14}$ - $\text{C}_{22}$  fatty acid radicals,

Z is the hydrogen atom or a radical

B1

23. Alcoholic or nonalcoholic beverage according to claim 22, wherein the phospholipid is selected from the group consisting of phosphatidic acid, phosphatidylcholine, phosphatidylethanolamine, phosphatidylserine, phosphatidylinositol, lysophosphatidylcholine.

24. Alcoholic or nonalcoholic beverage according to claim 20, wherein it is clear.

25. Alcoholic or nonalcoholic beverage according to claim 20, wherein it contains from 0.2 to 10 g/l of anethol and from 0.4 to 30 g/l of phospholipids.

26. Alcoholic or nonalcoholic beverage according to claim 25, wherein the ratio by weight between the phospholipid and the anethol is between 0.5 and 10.

27. Alcoholic beverage according to claim 20, further comprising from 8 to 400 g/l of ethanol.

cl 28. Alcoholic or nonalcoholic beverage according to claim 20, wherein the submicron emulsion, or microemulsion, is composed of nanosomes having an average diameter less than 100 nm, of the type comprising anethol-phospholipid phase in aqueous, alcoholic or nonalcoholic phase.

10 29. Alcoholic or nonalcoholic beverage according to claim 28, wherein the microemulsion is obtained by high-pressure homogenization or by an appropriate mixer at high speed.

B1 30. Alcoholic or nonalcoholic beverage according to claim 20, further comprising one or more antioxidants.

31. Alcoholic or nonalcoholic beverage according to claim 30, wherein the antioxidant substance is selected from the group consisting of tocopherols, ascorbyl palmitate, tea extracts, rosemary extracts and sage extracts.

32. Alcoholic or nonalcoholic beverage according to claim 20, wherein said beverage becomes cloudy when an acidic liquid is added, thereto, by destabilization of the microemulsion.

33. Alcoholic or nonalcoholic beverage according to claim 20, further comprising an effective amount of one or more substances which bring about the destabilization of the microemulsion when the beverage is diluted with water containing a sufficient concentration of divalent food cations.

34. Alcoholic or nonalcoholic beverage according to claim 33, wherein the substance is selected from the group consisting of phenolic compounds.

35. Alcoholic or nonalcoholic beverage according to claim 34, wherein the phenolic compound is selected from the group consisting of catechins, gallocatechins, tannins, condensed tannins, gallic tannins, ellagitannins, stilbenes, flavonoids, tea leaf extracts, ginkgo biloba, fruit extracts, wood, bark, peel roots, and nuts.

36. Alcoholic beverage according to claim 20, wherein it is essentially free of divalent cations.

B1

37. Alcoholic beverage according to claim 20, wherein it comprises per liter:

- from 8 to 400 g of ethanol,
- from 0.2 to 10 g of anethol,
- from 0.4 to 30 g of phospholipids

an effective amount of substances which destabilize the emulsion, when said beverage is diluted with water containing a sufficient amount of the divalent food cations, one or more antioxidant substances, optionally sugar.

38. Alcoholic or nonalcoholic cloudy beverage obtained by diluting a beverage according to claim 20.

39. Alcoholic or nonalcoholic beverage according to claim 21, wherein the lecithins are lysolecithins.

40. Alcoholic or nonalcoholic beverage according to claim 24, having a turbidity of less than 100 NTU.

41. Alcoholic or nonalcoholic beverage according to claim 25, wherein it contains 0.5 to 2 g/l of ane hol

42. Alcoholic beverage according to claim 27, wherein ethanol is present at an amount of 40 to 300 g/l.

B1

43. Alcoholic or nonalcoholic beverage according to claim 35, wherein the phenolic compound s selected from the group consisting of gallic esters, dimers, oligomers, theaflavins, thearubigin, catechin, epicatechin, epigallocatechin, gallocatechin and their mono- and digalloyl esters, the flavonoid is phlorctin, the tea leaf extracts are from green, black, or oolong tea leaves, the fruit extracts are apple, aubepine, guarana, grape, or elder extracts, and the wood, bark, peel roots, and nuts are oak tannins, oak-apple tannins, gambir tannins, grape seeds, Chinese rhubarb roots, clove, cinnamon, licorice, and cola.

44. Alcoholic beverage according to claim 36, wherein it is essentially free of calcium, magnesium, and manganese.

45. Alcoholic beverage according to claim 37, wherein ethanol is present at an amount of 40 to 300 g/ , and wherein the substances which destabilize the emulsion are phenolic compounds.

---

#### REMARKS

New claims 20-45 are presented in place of original claims 1-19.
